

# INNOVATIVE SOLUTIONS FOR A NEW WORLD

**Secucloud** is a fast growing provider of cloud-based network security solutions for internet service provider and TELCOs. As market leader in this segment, secucloud has established its state-of-the-art products worldwide. The IT security industry is very challenging with huge growth potential.

We are constantly developing new ideas and innovative products using the newest technologies. Therefore we are searching for specialists and creative minds, who enhance our „Elastic Cloud Security System“ (ECS<sup>2</sup>) and contribute new ideas.
